

Eye Movement Test Determines Your Right & Left Brain Hemisphere Attributes

Words * Self-Control * Logic * Math * Speech * Judgment * Analysis * Sequence * Lines * Lists

Daydreaming * Wholistic * Emotions * Intuition * Creativity * Spatial Awareness

Left Brain Personality Dominant Functions

Right Brain Personality Dominant Functions

You need another person to take this test. The tester should draw a line through the arrow that identifies the eye movement of the subject after each question is asked.

Code

Circle the direction the eyes move immediately after each question

| | | |
|---|----|---|
| How many doors are in your house? | RP |       |
| How would you look if you had four arms, three legs two mouths and one ear? | CP |       |
| What was the first thing you said out loud after waking up this morning? | RS |       |
| If you could ask any question of Steven Seagal, Jackie Chan or Chuck Norris, what would you ask them? | CS |       |
| How did you feel when you woke up this morning? | FN |       |
| What was the color and model of your very first car? | RP |       |
| Compliment yourself on something you did today that moved you closer to your dreams. | ST |       |
| Listen in your mind to your favorite song. | RS |       |
| What would you say if some one asked you what makes a person a hero or heroine? | CS |       |
| How did you feel right after you finished eating your last meal? | FN |       |
| What was the color hair of your very first boy friend or girl friend? | RP |       |
| Imagine a picture of what your dream home would look like. | CP |       |
| Describe to yourself what you will look like with your dream body. | ST |       |
| If you could ask President Bush one question, what would you ask him? | CS |       |
| How does it feel when I tell myself positive things that build up my self image? | FN |       |

CP= Create Pictures in your mind that are new and not based on anything you have ever seen before.
RP= Remember Pictures of things you have seen some time in your life.
RS= Remember Sounds you have heard before.
CS= Create Sounds or word phrases in your mind that are new and unique for that moment in time.
FN= Feel Now powerful emotions, the sensations of touching something or the movement of your muscles.
ST= Self Talk occurs when you are talking to yourself, usually the dominant brain hemisphere to the non-dominant one.
